Subject: RE: Harpenden House

" We recently stayed in Apartment 2 for 10 days whilst visiting friends and family in Harpenden. We were blown away by the superior quality of the facilities, appliances and the thought that had gone into making our stay comfortable.

Little things like having detergent for washing up and laundry capsules, tea towels were appreciated and the kids loved their Easter eggs! The apartment was a lovely size for our family of 4 and there was even space for the kids friends to sleep over. The sitting area is spacious with 2 double couches and there is a fantastic court yard with seats and a table which we used when we had friends over.

The location of the apartments is fantastic, just a 5 minute walk to the High street with its restaurants, shops and supermarket. It is also only a 10 minute walk from the station which was great as we travelled into London a number of times. There is parking on sight which is invaluable as parking is very difficult around town and expensive.

Tony who runs the apartment was a wonderful host, constantly checking we had everything we needed. We are delighted to review the property and look forward to making it our home again next year."

See you next year,

Cheers

Shannon & Russell
